

Anson Tam

📍 Princeton, NJ ✉ anson tam@berkeley.edu ☎ 510 517 6604

Education

University of California, Berkeley

August 2022 – May 2026

B.A. in Economics (Hons) & B.A. in Data Science with an Emphasis in Economics

GPA: 3.741/4.0

Major GPAs: Economics: 3.954/4.0; Data Science: 3.768/4.0

Coursework: Microeconomics* (A), Macroeconomics* (A), Econometrics* (A-), Macro Policy (A), Real Analysis (A), Probability (A-), Stochastic Processes (A-), Data Structures (A), Principles of Data Science (A-), Structure of Computer Programs (A-)

*Math-Intensive Course

Research Experience

International Economics Section, Princeton University

Princeton, NJ

Research Assistant for Prof. Aysegul Sahin, John Grigsby, and Karthik Sastry

July 2026 – Present

- Conducted research related to Macroeconomics and International Economics

Department of Economics, UC Berkeley

Berkeley, CA

Research Assistant for Prof. Ulrike Malmendier

Jan 2025 – May 2026

- Contributed to projects investigating: 1) AFA Presidential Address, 2) the role of anchoring and personal inflation experiences in shaping inflation expectations, 3) the effects of mental health on long-term labor market outcomes, and 4) how political competitiveness impacts policy seriousness among elected officials
- Supported data collection and analysis using Python and R for econometric and statistical modeling
- Assisted in literature reviews and contributed to projects to produce insights on behavioral economics and causal inference methods
- Summarized research papers, i.e. identifying aim, methods, conclusions and analyzing graphs and figures

Department of Economics, UC Berkeley

Berkeley, CA

Research Assistant for Ph.D. Student Vitor Weiss Jung

Jan 2025 – August 2025

- Studied the responsiveness of taxes to government debt in HANK models to better inform macro modeling
- Used Python for data cleaning, transformation, and regression modeling on government debt datasets sourced from the US and the EU
- Participated in weekly two-hour meetings to interpret findings in the context of fiscal policy debates and shifting steady-state debt

Research Projects

Senior Honors Thesis, UC Berkeley Economics

May 2026

Are Inflation Expectations Better Anchored Under Fixed Exchange Rate Regimes? Evidence from Denmark and Sweden [🔗](#)

- Wrote a 34-page research paper supervised by Prof. Yuriy Gorodnichenko

Research Paper, UC Berkeley Economics

May 2025

The Chinese Perspective: RMB as a Reserve Currency [🔗](#)

- Authored a 20-page research paper analyzing the prospects of the RMB as a global reserve currency

Teaching Experience

UC Berkeley Department of Economics

Berkeley, CA

Teaching Assistant for Econ 101A: Math Intensive Microeconomics

Aug 2024 – May 2025

Prof. Cecile Gaubert (SP 25), Prof. Zheng Huang (FA 24)

- Only undergraduate student on record to have taught a Math Intensive (PhD track) Economics course
- Led three discussion sections (30 students per section) which met twice a week, with full autonomy over instructional approach

- Held weekly office hours, evaluated assignments, and authored and graded 150+ exams
- Course Content: Consumer theory, producer theory, equilibrium in a competitive market, monopoly, general equilibrium, game theory, and asymmetric information

Professional Experience

Chartwell Capital

Summer Portfolio Analyst

Hong Kong, China

May 2024 - July 2024

- Long-only investment fund seeking undervalued investment opportunities in the Asia-Pacific region
- Worked with the Chief Risk Officer to conduct quantitative research data analysis to find most optimal trading patterns
- Covered the stock (HK: 0020) with recommendation to sell: responsibilities included investment thesis development and modeling

The Riverside Company

Private Equity Intern

San Francisco, CA

Jan 2024 - May 2024

- Worked under the Riverside Capital Appreciation Fund with senior associates and the co-Chief Investment Officer to find profitable opportunities in the EdTech, Maintenance and Food & Beverage sectors
- Prepared letter of intents, term sheets, while summarizing CIMs for analysts and associates to save time reading up on client data

Orion Land

Summer Analyst

Hong Kong, China

June 2023 - Aug 2023

- Created stock-picking template using "value investing" themes to filter companies with investment potential
- Constructed database on HK construction costs using data from Arcadis and internal company projects

Activities and Extracurriculars

Berkeley Investment Group

Equity Research Analyst — Industrials Pod Lead

Berkeley, CA

Aug 2023 - May 2026

- Sourced and diligence technology, consumer and industrial companies for potential investment opportunities
- Performed three statement modelling and company valuation using DCFs and comparable analysis

Skills and Interests

Languages: English, Mandarin & Cantonese

Skills: Python (Advanced), Java (Intermediate), R (Intermediate), LaTeX (Intermediate), SQL (Intermediate)

Interests: Swimming (400 IM Ranked 7th in HK), Football, F1, Basketball, Chess, Star Wars, Game of Thrones

Awards and Scholarships

- **UC Berkeley Economics Departmental Award (tuition remission)**, Spring 2025 – USD \$7,370.50
- **UC Berkeley Economics Departmental Award (tuition remission)**, Fall 2024 – USD \$7,370.50
- **Math Association of America**, AMC Math Competition First Place and Honor Roll
- **Canadian International School of Hong Kong**, CISPA Sportsmanship Award x2 – HKD \$2,000
- **Canadian International School of Hong Kong**, Chinese Language A Scholarship – HKD \$10,000
